# WORKSHEET FOR MEDICAL EXPENSES

NAME_____TAX YEAR _____

| MEDICAL EXPENSES |
|---|

Medical Expenses are eligible for the tax credit once they EXCEED 3% of your net income.
Example: You earn $50,000 then the first 3% = $1,500 is not deductible.
So, if you have $1,300 in medical expenses, it is NOT deductible at all.
IF, you have $1,800 in medical expenses, then only $300 of that is deductible.
Only medical expenses in the calendar year are deductible.
